

Earn Credits and Your CPA While Developing Leadership Skills with Cabrini

Make the most of your continuing education with Cabrini University's Master of Accounting (MAcc) program.

Designed for recent accounting graduates, career changers, and working professionals who wish to further develop their accounting expertise and improve their career opportunities, our MAcc program satisfies the requirement of 150 credit hours needed for Pennsylvania's—and most other states'—Board of Accountancy to be licensed as a certified public accountant (CPA).

Cabrini is dedicated to your success. We're committed to not only preparing you to pass the CPA exam, but also to providing you with a true Cabrini education, built on the three pillars of academic excellence, leadership development, and a commitment to ethical decision-making.

"I decided to pursue Cabrini's Master of Accounting program because it allowed me to study and pass the CPA exam while earning master's credits," said Mary McDevitt (MAcc'17), CPA.

"I remember driving down to Cabrini on a Saturday morning to meet with Professor [Paul] Cowley, and I was panicking because I thought I would forget everything. He helped me through some problems, he told me to relax, and he really gave me that one-on-one attention that I needed. I never felt like I couldn't ask a question or share my ideas. It was great."
