

CHECKPOINT LEARNING[®] CERTIFICATE PROGRAMS

A new level of assurance in practical skills training

Tax Fundamentals

Develop a stronger, smarter tax team that understands the concepts behind tax form completion.

Forensic Accounting

Increase your practice development and career opportunities related to fraud and forensic accounting.

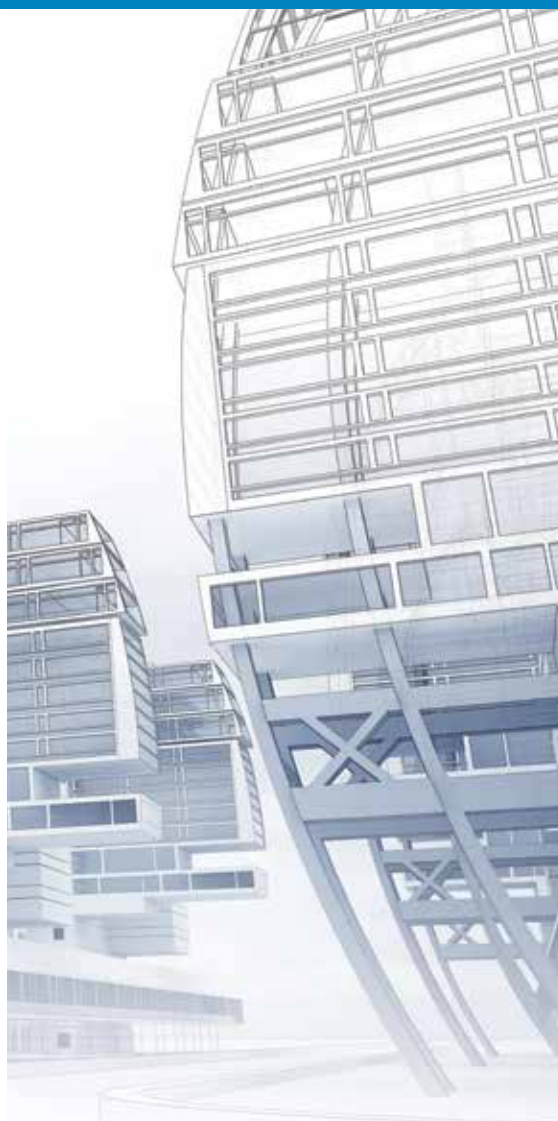

Tax Research

Develop and enhance foundational tax research knowledge to ensure consistency and accuracy every time.

Health Care Reform

Increase your client consulting and revenue opportunities related to health care reform legislation.

Tax and accounting professionals are required to be knowledgeable about a wide range of very technical topics. If they aren't, it can cost time, money and client confidence. That's why we developed Checkpoint Learning Certificate Programs. Offered in online and webinar blended learning formats, these programs can be completed on your timeline and are a great way to earn CPE and gain specialized technical expertise in key subject areas. Checkpoint Learning Certificate Programs deliver much more than specialized knowledge — they also deliver the peace of mind that comes with knowing that you and your staff have what it takes to handle the complex practice areas.
